

Close the Loop GROUP

Create - Recover - Reuse

Company Overview

What we do

waste

- Existing infrastructure costly and difficult to replicate creating significant moat
- Ability to scale with Tier 1 customers
- Revenue stream from collection
- Scale provides significant brand awareness
- Waste increasing y-on-y and driving corporate decision making

reuse & recycle

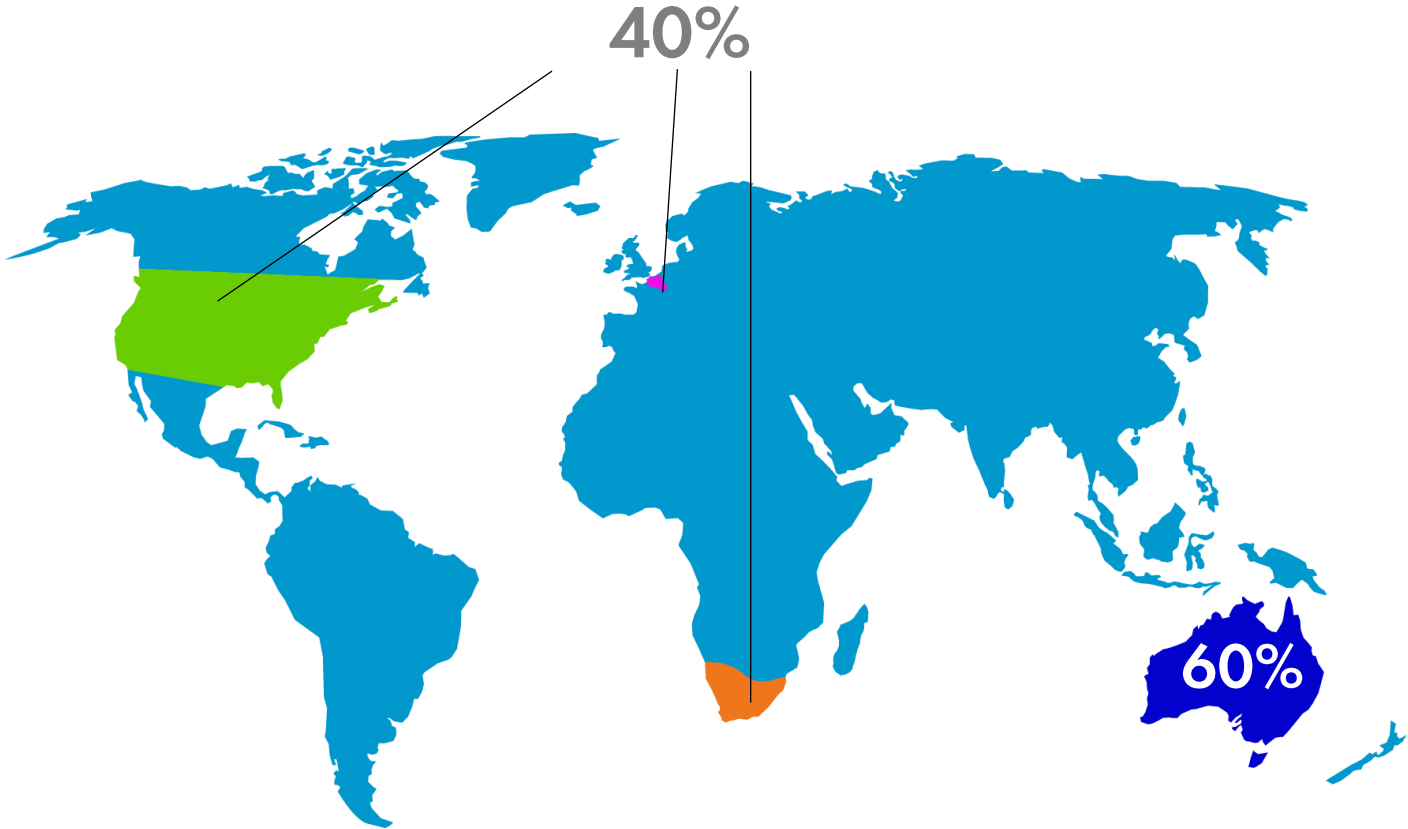

- Key recycling and urban mining infrastructure
- Global footprint to service Tier 1, multinational customers
- Ongoing R&D to improve existing technologies and bring new technologies to market
- CLG strategy in line with government and corporate initiatives

value add products

- TonerPlas®
- Zero Co
- Rflex®
- Shopping carts
- Sustainable packaging
- Significant pipeline of new opportunities and products

Division Impact

Global Operations

- 260,000 global collection points and growing
- Following the merger in 2021, the group has >250 enterprise customers in more than 20 countries
- Extensive global infrastructure allows the group to capitalise on urban mining and recycling initiatives
- The Chinese ban on importing mixed recycling plastic waste from other countries has created a drive for domestic solutions in the west
- **Ongoing R&D allows the group to regularly provide new solutions with immediate commercialisation**
