# **DroneShield Limited** (DRO)

A dame of two halves

## Bottom-line earnings miss to BPe

DRO recorded revenue from customers of \$23.3m (+106% vs pcp) during the 1H24, -3% below BP estimates. Gross margin (71.6%) was largely in-line with BPe however opex (-\$22.7m) was materially greater than our estimates (-\$18.5m) and was the primary reason for the miss at the bottom line. This included share-based payment expenses of -\$2.7 million, an increase of 207% relative to 1H23 of -\$0.8m. DRO recorded EBITDA of -\$5.2m (vs BPe -\$1.1m) and a net loss after tax of -\$4.8m (vs BPe -\$1.6m), excluding the share-based payment expense the net loss after tax was \$2.1m. The company had a cash balance of \$230m as of 23-Aug-24, with no core debt or convertibles.

## Focus remains on 2H

The company entered the 2H with a contracted backlog of \$32m and sales pipeline of \$1.1b, including 33 projects valued over \$5m each and the largest valued at \$213m. We remain confident the company will deliver a significantly improved 2H performance based on 1) the significant level of inventory on hand to facilitate rapid fulfilment, 2) the historical seasonality of the business with >80% of CY23 revenue recorded in the 2H and 3) numerous near-term sales opportunities, including recently announced military aid packages (see previous report 22-Jul-24).

## Investment View: 8% increase in PT to \$1.35

We have made no changes to our revenue forecasts at this stage, whilst we have made minor changes to operating expenses, cash flows and working capital in-line with today's result. Our EPS changes are -6% and +2% in CY24 and CY25, respectively. We have reassessed our valuation assumptions and determined they are overly conservative considering the well capitalised balance sheet (we made no changes post the recent capital raise) and the recent re-rating of mid-cap defence peers. As such, we have increased the multiples we apply in our EV/EBITDA and PE valuations to 26x and 36x. respectively. The net result is an 8% increase in our PT to \$1.35, which is >15% premium to the share price so we retain our buy recomm.

SOURCE: COMPANY DATA AND BELL POTTER SECURITIES ESTIMATES

The key take-outs are:

- **Revenue pre-released:** DRO recorded revenue from customers of \$23.3m (+106% vs pcp) during the 1H24, -3% below BP estimates. The miss to our estimate was based on other income included in the pre-released revenue figure.
- **Gross margin:** Gross margin (71.6%) was largely in-line with BPe and we anticipate further margin expansion as SaaS revenues increase as a proportion of the overall figure.
- Scale up drives higher opex: Operating expenses (-\$22.7m) were materially greater than our estimates (-\$18.5m) and were the primary reason for the miss at the bottom line. This included share-based payment expenses of -\$2.7 million, an increase of 207% relative to 1H23 of -\$0.8m.
- Miss at EBITDA and NPAT: DRO recorded EBITDA of -\$5.2m (vs BPe \$1.1m) and a net loss after tax of -\$4.8m (vs BPe \$1.6m), excluding the share-based payment expense the net loss after tax was \$2.1m.
- **Cash:** The company had a cash balance of \$230m as of 23-Aug-24, with no core debt or convertibles.

# **Forecast and Valuation Changes**

## **Changes to forecasts**

We have made no changes to our revenue forecasts at this stage, whilst we have made minor changes to operating expenses, cash flows and working capital in-line with today's result.

We remain confident the company will deliver a significantly improved 2H performance based on 1) the significant level of inventory on hand to facilitate rapid fulfilment, 2) the historical seasonality of the business with >70% of CY23 revenue recorded in the 2H and 3) numerous near-term sales opportunities including recently

Our EPS changes are -6% and +2% in CY24 and CY25, respectively

A summary of the changes in our key forecasts is how below.

Figure 2 - Change in key forecasts

## 8% increase in PT to \$1.35

We have updated each valuation used in the determination of our price target for the earnings changes as well as market movements and time creep.

We have reassessed our valuation assumptions and determined they are overly conservative considering the well capitalised balance sheet (we made no changes post the recent capital raise) and the recent re-rating of mid-cap defence peers. As such, we have increased the multiples we apply in our EV/EBITDA and PE valuations to 26x and 36x, respectively.

There are no changes to our DCF assumptions, which are a 9.5% WACC and 4.5% TGR.

The change in each valuation and the impact on our PT calculation is shown below.

	Old (as at 08-Aug-24)					New (as at 27-Aug-24)					
		Valuation	%		Price		Val	uation	%		Price
		per share	weighting		target		per	share	weighting		target

# **DroneShield Limited (DRO)**

## **Company Description**

DroneShield Limited (DRO) is an Australian defence manufacturer specialising in counterdrone technology. DRO provides an end-to-end counter-drone solution that integrates proprietary artificial intelligence software with a suite of hardware products utilised to detect, identify and defeat aerial, ground and maritime threats. The company's products are largely in-house technology and include handheld, vehicular and fixed installations. DRO's customers primarily include military and intelligence, as well as law enforcement, critical infrastructure and commercial parties globally.

DroneShield was founded in the U.S on the 10th January 2014. The company quickly shifted its operations to Australia with the goal of listing on the ASX, which occurred on the 4th November 2015.

## **Investment Thesis**

We retain our BUY recommendation on DroneShield. Our investment thesis is based on:

- Valuation: Our 12-month price target on DroneShield is \$1.35. The price target is generated from a blend of three valuation methodologies we apply to the company: EV/EBITDA, PE ratio and DCF. The price target is a >15% premium to the current share price and the total expected return is the same given there is no forecast dividend yield so wretain our BUY recommendation.
- Solid revenue momentum: DRO has demonstrated strong earnings momentum in recent periods, with CY23 revenue (\$55.1m) increasing +228% YoY. We believe this momentum is likely to continue in CY24 based on a \$28m contracted order backlog and \$1.1b sales pipeline.
- Structural growth in the market: Increasing hostilities globally are broadly driving a significant increase in defence budgets with aggregate military expenditure exceeding \$2.4 trillion USD in 2023. Asymmetric warfare, including drones and counter-drone defence, is one of the fastest growing subsets within this growing military market the core competency of DRO.
- **Opportunity for expansion into adjacent markets:** DRO's experience with AI/ML technologies in the counter-drone market has provided the opportunity to apply its capabilities to the broader field of Electronic Warfare, which has the potential to be an extremely lucrative opportunity for the company to expand outside its core business.

## Key Risks

Key downside risks to our estimates and valuation include (but are not limited to):

- Failure to retain existing clients or attract new customers: Failure to retain existing customers or attract new customers will severely impact revenue growth and the overall financial performance of the company.
- Research & Development Risk: If the company lags the rest of the market in its product development it may have an adverse effect on the company's future operations.
- **Competition Risk:** DRO operates in a competitive market including large multi-national defence contractors who have extensive resources and scale.

SOURCE: BELL POTTER SECURITIES ESTIMATES

### **Recommendation structure**

Buy: Expect >15% total return on a 12 month view. For stocks regarded as 'Speculative' a return of >30% is expected.

Hold: Expect total return between -5% and 15% on a 12 month view

## Sell: Expect <-5% total return on a

Speculative Investments are either start-up enterprises with nil or only prospective operations or recently commenced operations with only forecast cash flows, or companies that have commenced operations or have been in operation for some time but have only forecast cash flows and/or a stressed balance sheet.

Such investments may carry an exceptionally high level of capital risk and volatility of returns.

### **Research Coverage & Policies**

For Bell Potter Securities' Research Coverage Decision Making Process and Research Independence Policy please refer to our company website: https://bellpotter.com.au/research-independence-policy/.

### Authoring Research Analyst's Certification

The Authoring Research Analyst is responsible for the content of this Research Report, and, certifies that with respect to each security that the Analyst covered in this Report (1) all the views expressed accurately reflect the Analyst's personal views about those securities and were prepared in an independent manner and (2) no part of the Analyst's compensation was, is or will be, directly or indirectly, related to specific recommendations or views expressed by that Research Analyst in the Research Report.

#### **Research Analyst's Compensation**

Research Analyst's compensation is determined by Bell Potter Securities Research Management and Bell Potter Securities' Senior Management and is based upon activities and services intended to benefit the investor clients of Bell Potter Securities Ltd. Compensation is not linked to specific transactions or recommendations. Like all Company employees Research Analysts receive compensation that is impacted by overall Company profitability.

### Prices

The Price appearing in the Recommendation panel on page 1 of the Research Report is the Closing Price on the Date of the Research Report (appearing in the top right hand corner of page 1 of the Research Report), unless a before midday (am) time appears below the Date of the Research Report in which case the Price appearing in the Recommendation panel will be the Closing Price on the business day prior to the Date of the Research Report.

### Availability

The completion and first dissemination of a Recommendation made within a Research Report are shortly after the close of the Market on the Date of the Research Report, unless a before midday (am) time appears below the Date of the Research Report in which case the Research Report will be completed and first disseminated shortly after that am time.

### Dissemination

Bell Potter generally disseminates its Research to the Company's Institutional and Private Clients via both proprietary and non-proprietary electronic distribution platforms. Certain Research may be disseminated only via the Company's proprietary distribution platforms; however such Research will not contain changes to earnings forecasts, target price, investment or risk rating or investment thesis or be otherwise inconsistent with the Author's previously published Research. Certain Research is made available only to institutional investors to satisfy regulatory requirements. Individual Bell Potter Research Analysts may also opt to circulate published Research to one or more Clients by email; such email distribution is discretionary and is done only after the Research has been disseminated. The level and types of service provided by Bell Potter Research Analysts to Clients may vary depending on various factors such as the Client's individual preferences as to frequency and manner of receiving communications from Analysts, the Client's risk profile and investment focus and perspective (e.g. market-wide, sector specific long term and short term etc.) the size and scope of the overall Client relationship with the Company and legal and regulatory constraints.

### Disclaimers

This Research Report is a private communication to Clients and is not intended for public circulation or for the use of any third party, without the prior written approval of Bell Potter Securities Limited.

The Research Report is for informational purposes only and is not intended as an offer or solicitation for the purpose of sale of a security. Any decision to purchase securities mentioned in the Report must take into account existing public information on such security or any registered prospectus.

This is general investment advice only and does not constitute personal advice to any person. Because this Research Report has been prepared without consideration of any specific client's financial situation, particular needs and investment objectives ('relevant personal circumstances'), a Bell Potter Securities Limited Broker (or the financial services licensee, or the representative of such licensee, who has provided you with this report by arrangement with Bell Potter Securities Limited) should be made aware of your relevant personal circumstances and consulted before any investment decision is made on the basis of this Research Report.

While this Research Report is based on information from sources which are considered reliable, Bell Potter Securities Limited has not verified independently the information contained in this document and Bell Potter Securities Limited and its directors, employees and consultants do not represent, warrant or guarantee expressly or impliedly, that the information contained in this Research Report is complete or accurate.

Nor does Bell Potter Securities Limited accept any responsibility for updating any advice, views, opinions or recommendations contained in this Research Report or for correcting any error or omission which may have become apparent after the Research Report has been issued.

Bell Potter Securities Research Department has received assistance from the Company referred to in this Research Report including but not limited to discussions with management of the Company. Bell Potter Securities Policy prohibits Research Analysts sending draft Recommendations, Valuations and Price Targets to subject companies. However, it should be presumed that the Author of the Research Report has had discussions with the subject Company to ensure factual accuracy prior to publication.

All opinions, projections and estimates constitute the judgement of the Author as of the Date of the Research Report and these, plus any other information contained in the Research Report, are subject to change without notice. Prices and availability of financial instruments also are subject to change without notice.

Notwithstanding other departments within Bell Potter Securities Limited advising the subject Company, information obtained in such role is not used in the preparation of the Research Report.

Although Bell Potter Research does not set a predetermined frequency for publication, if the Research Report is a fundamental equity research report it is the intention of Bell Potter Research to provide research coverage of the covered issuers, including in response to news affecting the issuer. For non-fundamental Research Reports, Bell Potter Research may not provide regular updates to the views, recommendations and facts included in the reports.

Notwithstanding that Bell Potter maintains coverage on, makes recommendations concerning or discusses issuers, Bell Potter Research may be periodically restricted from referencing certain Issuers due to legal or policy reasons. Where the component of a published trade idea is subject to a restriction, the trade idea will be removed from any list of open trade ideas included in the Research Report. Upon lifting of the restriction, the trade idea will either be re-instated in the open trade ideas list if the Analyst continues to support it or it will be officially closed.

Bell Potter Research may provide different research products and services to different classes of clients (for example based upon longterm or short term investment horizons) that may lead to differing conclusions or recommendations that could impact the price of a security contrary to the recommendations in the alternative Research Report, provided each is consistent with the rating system for each respective Research Report.

Except in so far as liability under any statute cannot be excluded, Bell Potter Securities Limited and its directors, employees and consultants do not accept any liability (whether arising in contract, in tort or negligence or otherwise) for any error or omission in the document or for any resulting loss or damage (whether direct, indirect, consequential or otherwise) suffered by the recipient of the document or any other person.

In the USA and the UK this Research Report is only for institutional investors. It is not for release, publication or distribution in whole or in part in the two specified countries. In Hong Kong this Research Report is being distributed by Bell Potter Securities (HK) Limited which is licensed and regulated by the Securities and Futures Commission, Hong Kong. In the United States this Research Report is being distributed by Bell Potter Securities (US) LLC which is a registered broker-dealer and member of FINRA. Any person receiving this Research Report from Bell Potter Securities (US) LLC and wishing to transact in any security described herein should do so with Bell Potter Securities (US) LLC.

Disclosure: Bell Potter Securities acted as Joint Lead Manager and Underwriter of DRO's \$100m capital raising in April 2024 and \$120m capital raising in August 2024 and received fees for that service.
