

Minerals 260

Transformational Acquisition of the 2.3Moz Bullabulling Gold Project

- One of Australia's largest undeveloped gold projects in a world class location
- Significant historical work and derisked pathway to near-term production
- Acquisition puts Minerals 260 on the path to becoming a leading mid-tier mining company

Important Notes and Disclaimer

Overview

This presentation contains summary information about Minerals 260 Limited (ACN 650 766 911) (**Company**) and is current as of the cover date. The information in this presentation is of a general background and does not purport to be complete. This presentation is not investment or financial product advice (nor tax, accounting or legal advice) and is not intended to be used for the basis of making an investment decision.

The information contained in this presentation has been prepared without taking into account the objectives, financial situation or needs of individuals. Investors should obtain their own advice before making any investment decision. The Company has prepared this document based on information available to it at the time of preparation. No representation or warranty, express or implied, is made as to the fairness, accuracy or completeness of the information, opinions and conclusions contained in this Presentation.

Forward Looking Statements

This presentation may contain forward-looking statements, guidance, forecasts, estimates, prospects, projections or statements in relation to future matters that may involve risks or uncertainties and may involve significant items of subjective judgement and assumptions of future events that may or may not eventuate (**Forward Statements**). Forward Statements can generally be identified by the use of forward looking words such as "anticipates", "estimates", "will", "should", "could", "may", "expects", "plans", "forecast", "target" or similar expressions. Forward Statements including references to future or near-term production and the general prospectivity of the deposits at the Project, likelihood of permitting the Project and taking a financial investment decision, and the ability to satisfy conditions relevant to the Proposed Transaction, among other indications, guidance or outlook on future revenues, distributions or financial position and performance or return or growth in underlying investments are provided as a general guide only and should not be relied upon as an indication or guarantee of future performance. To the extent that certain statements contained in this presentation may constitute 'Forward Statements' or statements about forward looking matters, then the information reflects the Company's (and no other party's) intent, belief or expectations as at the date of this presentation. No independent third party has reviewed the reasonableness of any such statements or assumptions. None of the Company, its related bodies corporate and their respective officers, directors, employees, advisers, partners, affiliates and agents (together, the **MI6 Parties**) represent or warrant that such Forward Statements will be achieved or will prove to be correct or gives any warranty, express or implied, as to the accuracy, completeness, likelihood of achievement or reasonableness of any Forward Statement contained in this presentation. Except as required by law or regulation, the Company assumes no obligation to release updates or revisions to Forward Statements to reflect any changes. Recipients should form their own views as to these matters and any assumptions on which any of the Forward Statements are based and not place reliance on such statements.

Disclaimer

No party other than the Company has authorised, permitted or caused the issue, submission, dispatch or provision of this presentation, or takes any responsibility for, or makes or purports to make any statement, representation or undertaking in this presentation and there is no statement in this presentation that is based on any statement by any other party. No person, either as a director, partner of or in the employment of the Company has any authority to make, imply, or give any representation or warranty whatsoever in relation to the information contained in this presentation. None of the MI6 Parties take any responsibility for any information in this presentation or any action taken by you on the basis of such information.

To the maximum extent permitted by law, the MI6 Parties:

- exclude and disclaim all liability, including (without limitation) any liability for fraud or negligence, for any expenses, losses, damages or costs incurred either as a result of the information in this presentation being inaccurate or incomplete in any way for any reason, or otherwise arising in connection with this presentation; and
- make no representation or warranty, express or implied, as to the currency, accuracy, reliability or completeness of information in this presentation.

Competent Person Statement

The information in this presentation that relates to Exploration Results and the Mineral Resource Estimate for the Bullabulling Gold Project is extracted from the Minerals 260 Limited ASX announcement titled "**Acquisition of Bullabulling Gold Project**" dated **14 January 2025**.

This announcement is available on www.minerals260.com.au.

The Company confirms that it is not aware of any new information or data that materially affects the information included in the previous announcements and that in the case of the Mineral Resource Estimate for the Bullabulling Gold Project, all material assumptions and technical parameters underpinning the estimates in the previous announcement continue to apply and have not materially changed.

Currency

All dollar values are in Australian dollars (\$) or A\$) unless otherwise stated.

Authorisation

This presentation has been authorised for release by the Board.

Transaction Summary

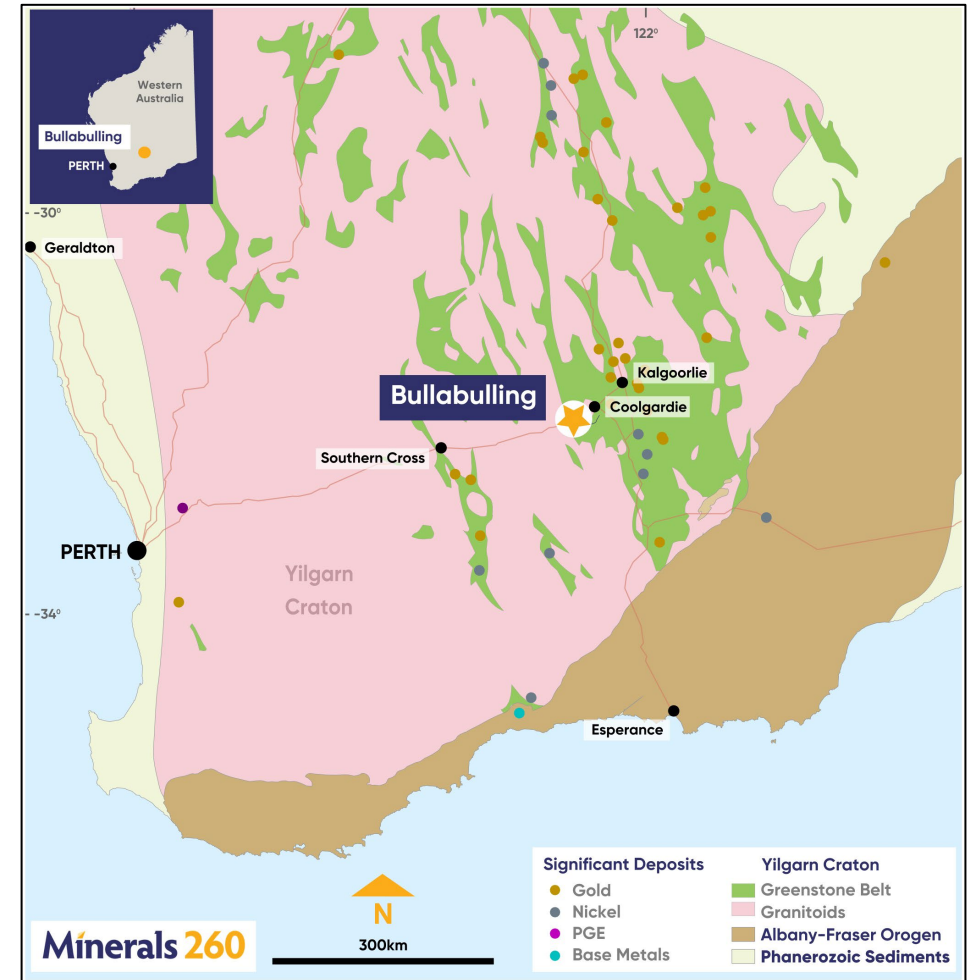

Transaction and Project Summary

- Minerals 260 Limited (ASX:MI6) to **acquire 100% of the Bullabulling Gold Project (Project)** and surrounding exploration ground from Norton Gold Fields Pty Ltd, a subsidiary of Zijin Mining Group Co., Ltd. (**Proposed Transaction**), for total consideration of \$166.5 million comprising:
 - **\$156.5 million cash consideration¹** and **\$10.0 million scrip consideration** (with the number of fully paid ordinary shares being issued based on the issue price used for the proposed equity raise).
- With a JORC 2012 RPEEE² reportable **Mineral Resource estimate of 60Mt @ 1.2g/t Au for 2.3Moz³**, Bullabulling is **one of Australia’s largest open pittable near-term production gold resources**.
- Previous metallurgical test work undertaken showed that the resource is amenable to **conventional carbon-in-leach processing and the average gold recovery utilised for the resource was 87%**.
- Strong foundations support a near-term production goal, including approximately **12,000 drill holes for 530,000 metres** across the Project.
- **Resource is on granted mining leases**, located in the world class mining location of Western Australia in the infrastructure rich Coolgardie / Goldfields Region and has a **Native Title Land Use Agreement**.

Conditions, Funding and Timing

- Transaction completion is subject to regulatory and shareholder approvals, an equity raise to fund the purchase, ASX re-compliance and other additional standard conditions for a transaction of this nature.
- MI6 propose to fund the Proposed Transaction and working capital to progress the Project to final investment decision via an equity raise. Further details on the equity raise will be provided in due course.
- Bell Potter Securities Limited and Argonaut Securities Pty Limited have been appointed as Joint Lead Managers to execute the equity raise.

Bullabulling Gold Project Location

¹ MI6 has paid a deposit of A\$2.0 million upon signing the Proposed Transaction; ² Reasonable Prospects For Eventual Economic Extraction (RPEEE); ³ Bullabulling Mineral Resource Estimate, refer MI6 ASX Announcement 14 January 2025. 0.5g/t Au cut-off grade. Tonnages, grades and ounces have been rounded to two significant figures to reflect the relative uncertainty of the estimate. Refer to the attached appendix for details on confidence categories.

Strong Leadership Team with Mine and Company Building Experience

Board and Key Management

Tim Goyder

Non-Executive Chairman

+48 years

Mining Executive

Chairman & major shareholder of Liontown Resources & DevEx Resources.

Major (13%) shareholder of Minerals 260.

Luke McFadyen

Managing Director

+15 years

Mineral Economist

Former Head of Strategy at OZ Minerals and previous Finance, Commercial and Strategy roles at South32, BHP and Syrah Resources.

Emma Scotney

Non-Executive Director

+25 years

Lawyer & Executive

Non-Executive Director of DeGrey Mining and Santana Minerals and Director of a large private commercial and cropping enterprise.

David Richards

Non-Executive Director

+40 years

Geologist

Former Managing Director of Minerals 260 & Liontown Resources. Discovered the Kathleen Valley and Buldania lithium deposits, as well as the Vera-Nancy gold deposit.

Stacey Apostolou

Non-Executive Director

+30 years

Finance Executive

Extensive experience in senior finance and commercial roles within the resources sector. Currently in a corporate role at DevEx Resources and Non-Executive Director of Lachlan Star Limited.

Jamie Armes

CFO & Company Secretary

+20 years

Accountant

Experienced finance and corporate governance executive, having served as Company Secretary, CFO and Financial Controller for several ASX-listed companies.

Proposed Transaction and Project Start-up Timeline

Minerals 260's Value Proposition

- ✓ **Transformational acquisition of the 2.3Moz Bullabulling Gold Project, one of Australia's largest undeveloped gold projects located in the world class location of Coolgardie, Western Australia**
- ✓ **Numerous highly prospective exploration targets located at depth and along strike, supporting the plan to grow the Bullabulling mineral resource with an 80,000-metre drilling program**
- ✓ **Acquisition cost of A\$74/oz for 2.3Moz, exceptional value for an asset of this scale, location, stage of development and quality**
- ✓ **De-risked – previously operational, significant drilling and metallurgical work, granted mining leases and Native Title Land Use Agreement**
- ✓ **Strong leadership team with mine and company building experience, aligned interests with shareholders**
- ✓ **Acquisition puts Minerals 260 on the path to becoming a leading mid-tier mining company**

Appendices

Snowden- Optiro Updated Bullabulling Mineral Resource of 60.3Mt @ 1.2g/t Au for 2.3Moz

Bullabulling Mineral Resource Estimate as of December 2024 (RPEEE)

Area	Indicated			Inferred			TOTAL RESOURCES		
	Tonnes (Mt)	Grade (Au g/t)	Ounces (Koz)	Tonnes (Mt)	Grade (Au g/t)	Ounces (Koz)	Tonnes (Mt)	Grade (Au g/t)	Ounces (Koz)

Notes: Reported above a gold cut-off grade of 0.5g/t and inside a A\$3,000 RPEEE pit shell. Tonnages, grades and ounces have been rounded to two significant figures to reflect the relative uncertainty of the estimate.

Geology

The Bullabulling project is located in the Archaean Yilgarn Craton approximately 65 km southwest of Kalgoorlie, and 25 km west of Coolgardie in Western Australia.

The Coolgardie domain is bounded by the Zuleika Shear to the east and the Ida Fault to the west and contains greenstone sequences. The Burra Granite makes up the southern part of the Coolgardie Domain. A major structure, the Kunanalling Shear Zone passes through the middle of the domain as well as many folds and thrusts which repeat the greenstone stratigraphy.

Deposit Type

Gold mineralisation is predominately shear-hosted in a continuous sequence of amphibolite which strikes approximately 8.5km. The amphibolites range from hornblende-rich to quartz-rich and sit on an ultramafic basement.
