Disclaimer & Competent Person's Statement

Disclaimer & Competent Person's Statement

This Presentation is dated 12 February 2026 and was prepared by Australian Strategic Materials Limited (ACN 168 368 401) (ASX: ASM) (**ASM**, and together with its subsidiaries, the **ASM Group**). For the purposes of ASX Listing Rule 15.5, ASM confirms that this Presentation has been authorised for release to ASX by ASM's Board of Directors.

This Presentation has been prepared in relation to the proposed acquisition by Energy Fuels Inc. (**Energy Fuels**) of 100% of the issued capital of ASM by way of a share scheme of arrangement and an option scheme of arrangement under Part 5.1 of the *Corporations Act 2001* (Cth) (**Corporations Act**), (**Scheme, Options Scheme** and together, the **Transaction**).

If the Scheme is implemented, Energy Fuels would acquire 100% of the fully paid ordinary shares in ASM in exchange for the issue of new fully paid common shares in Energy Fuels and new Energy Fuels CHESS Depository Interests, subject to the terms and conditions described in the scheme implementation deed entered into on or about the date of this Presentation (**Scheme Implementation Deed**). If the Option Scheme is implemented, the Options will be cancelled in exchange for cash consideration to ASM Optionholders, subject to the terms and conditions described in the Scheme Implementation Deed. A copy of the Scheme Implementation Deed is available on the ASX website (at www.asx.com.au) and the ASM website (at asm-au.com).

Summary Information

This Presentation contains summary information and statements about the ASM Group and Energy Fuels the business and activities of the ASM Group and Energy Fuels, which are current as at the date of this Presentation (unless otherwise indicated). The information in this Presentation is general in nature and does not purport to be exhaustive and does not comprise all of the information that a shareholder or potential investor in ASM may require in evaluating an investment in ASM or to make an informed assessment of the Transaction and its effect on ASM. The information in this Presentation should be read in conjunction with ASM's other periodic and continuous disclosure announcements lodged with the ASX, which are available on the ASX website (at www.asx.com.au) or ASM's website (at asm-au.com). This Presentation has been prepared based on information available to ASM as at the date of this Presentation, including information from third parties that has not been independently verified.

This Presentation has been prepared by ASM with due care, but to the maximum extent permitted by law, no representation or warranty, express or implied, is made as to the fairness, accuracy, correctness, adequacy, reliability or completeness of the information, opinions or conclusions contained in this Presentation. Except for any statutory liability which cannot be excluded, each member of the ASM Group and Energy Fuels and its controlled entities and their respective directors, officers, employees, agents and advisers expressly disclaim all liability for any direct or indirect loss or damage that may be suffered by any person in relation to, and take no responsibility for, any information in this Presentation or any error, misstatement or omission from it. Nothing in this presentation constitutes any form of offer, invitation or advice and no reliance may be placed on it.

Further information about the Transaction (including the full terms and conditions of the Transaction and the potential of the Transaction for ASM shareholders) will be provided by ASM to ASM shareholders and released to ASX in due course, in the form of an explanatory statement (as that term is defined in section 412 of the *Corporations Act*) and notice of meeting (together, the Scheme Booklet). The Scheme Booklet will also include or be accompanied by an independent expert's report that will opine on whether the Transaction is in the best interest of ASM shareholders and Option holders (as applicable). Any vote by ASM securityholders in respect of the potential Transaction should only be made on the basis of the information contained in the Scheme Booklet and ASM securityholders are advised to read the formal documentation carefully once it has been dispatched.

Not an offer, and not investment or financial product advice

This Presentation is not a prospectus, product disclosure statement or other disclosure document under the *Corporations Act*, or other offering document under Australian law or any other law. This Presentation has not been lodged with the Australian Securities and Investments Commission.

This Presentation, and the information contained in it, is provided for information purposes only, should not be read or understood as and is not an offer or solicitation or an invitation or recommendation to subscribe for, acquire or buy securities of ASM, or any other financial products or securities, in any place or jurisdiction, or a solicitation of any vote or approval in connection with the Transaction.

This Presentation, and the information provided in it, does not constitute, and is not intended to constitute, financial product or investment advice (nor tax, accounting or legal advice). It has been prepared without taking into account the objectives, financial or tax situation or particular needs of any individual. Any investment decision, or other decision in connection with the Transaction, should be made based solely upon appropriate due diligence and other inquiries.

An investment in securities in ASM is subject to known and unknown risks, some of which are beyond the control of ASM. These risks, together with other general risks applicable to all investments in listed securities not specifically referred to, may affect the value of shares in ASM in the future. ASM do not guarantee any particular rate of return or the performance of ASM, nor guarantee the repayment of capital from ASM, or any particular tax treatment.

When making any investment decision, investors should make their own enquires and investigations regarding all information in this Presentation, including but not limited to the assumptions, uncertainties and contingencies which may affect future operations of ASM, and the impact that different future outcomes may have on ASM. In respect of the Transaction, investors should carefully consider the information to be made available in the Scheme Booklet (and all other materials issued by ASM in connection with the Transaction) and seek independent advice before making any decision.

Before making any investment decision, investors should consider the appropriateness of all the information available having regard to their own objectives, financial and tax situation and needs and seek professional advice from their legal, financial, taxation or other independent adviser (having regard to the requirements of all relevant jurisdictions). ASM are not licensed to provide financial product advice in respect of an investment in securities, and do not purport to give advice of any nature. An investment in any listed company, including ASM, is subject to risks of loss of income and capital.

Forward looking statements

This Presentation contains certain statements and comments which constitute "forward looking statements" or estimates. Often, but not always, forward looking statements or estimates can generally be identified by the use of forward looking words such as "may", "will", "likely", "expect", "intend", "plan", "target", "forecast", "scheduled", "believes", "estimate", "anticipate", "continue", "outlook" and "guidance", or similar expressions, and may include, without limitation, statements regarding the impact of the proposed acquisition, the combined entity's business following the proposed acquisition and the asset development pipeline; plans; strategies and objectives of management; anticipated production and production potential; estimates of future capital expenditure or construction commencement dates; expected costs or production outputs; estimates of future product supply, demand and consumption; statements regarding future product prices; and statements regarding the expectation of future Mineral Resources and Ore Reserves. Indications of, and guidance on, future earnings and financial position and performance are also forward looking statements.

While these forward looking statements and estimates reflect ASM's expectations at the date of this Presentation, they are not guarantees or predictions of future performance or statements of fact. The information is based on ASM's forecasts and as such is subject to variation related to, but not restricted to, economic, market demand/supply and competitive factors.

A number of important factors could cause actual results or performance to differ materially from the forward looking statements, including known and unknown risks (including those contained in the Scheme Booklet (which will be provided in due course and will contain risks specific to the Transaction)). These factors may include, but are not limited to, changes in commodity prices, foreign exchange fluctuations and general economic factors, increased capital costs and operating costs, the speculative nature of exploration and project development, general mining and development risks, drilling and production results, Mineral Resources or Ore Reserves estimations, loss of market, industry competition, closure and rehabilitation risks, changes to the regulatory framework within which the ASM Group operates or may in the future operate, environmental conditions and environmental issues, and the recruitment and retention of key personnel, industrial relations issues and litigation. Forward looking statements and estimates are only predictions and are subject to known and unknown risks, uncertainties, assumptions, and other important factors that could cause the actual results, performances or achievements of the Company to differ materially from future results, performances or achievements expressed, projected or implied by such forward looking statements.

Forward looking statements, opinions and estimates provided in this document are based on assumptions and contingencies that are subject to change without notice and which may ultimately ...

prove to be materially incorrect, as are statements about market and industry trends, which are based on interpretations of current market conditions. Pro forma information is a type of estimate and does not reflect actual information and is subject to assumptions and judgements which may be wrong and so may not be accurate. There can be no assurance that actual outcomes will not differ materially from these forward looking statements. Investors are cautioned not to place undue reliance on these forward looking statements, which speak only as of the date thereof. ASM cautions against reliance on any forward looking statements or guidance, particularly in light of the current economic climate.

Information on likely developments in the ASM Group's business strategies, prospects and operations for future financial years and the expected results that could result in unreasonable prejudice to the ASM Group (for example, information that is commercially sensitive, confidential or could give a third party a commercial advantage) has not been included below in this Presentation. The categories of information omitted include forward looking estimates and projections prepared for internal management purposes, information regarding ASM's operations and projects, which are developing and susceptible to change, and information relating to commercial contracts.

Investors should consider the forward looking statements contained in this Presentation in light of those risks and disclosures. Neither the ASM Group, nor any of its directors, officers, employees, agents or advisers makes any representation or warranty, express or implied as to the accuracy, likelihood of achievement or reasonableness of any forward looking statement contained in this Presentation. Except as required by law or regulation (including the ASX Listing Rules), none of the ASM Group, nor any of its directors, officers, employees, agents or advisers undertakes any obligation to supplement, revise or update forward looking statements or to publish prospective financial information in the future, regardless of whether new information, future events, results or other factors affect the information contained in this Presentation.

Nothing in this Presentation will, under any circumstances (including by reason of this Presentation remaining available and not being superseded or replaced by any other presentation or publication with respect to ASM or the subject matter of this Presentation), create an implication that there has been no change in the affairs of ASM since the date of this Presentation.

Competent Person

The information in this Presentation that relates to ASM's Mineral Resources is extracted from ASM's Information Memorandum released to ASX on 29 July 2020 and is available at www.asx.com.au. ASM confirms that it is not aware of any new information or data that materially affects the information included in that original market announcement and that all material assumptions and technical parameters underpinning the estimates in that announcement continue to apply and have not materially changed. ASM confirms that the form and context in which the findings of the Competent Person are presented have not been materially modified from the original market announcement. The Competent Person for that announcement was Mr D I Chalmers.

Dubbo Project production targets and financial forecasts

The information in this Presentation that relates to ASM's production targets and financial forecasts for the Dubbo Project is extracted from ASM's ASX announcement titled "Heap Leach Option delivers major cost reductions for Dubbo Project" released to ASX on 11 July 2025 and is available at www.asx.com.au. ASM confirms that all the material assumptions underpinning the production targets, and the forecast financial information derived from the production targets, in that announcement continue to apply and have not materially changed.

Previously reported information

Optimization prepared and disclosed under the JORC Code has not materially changed since last reported in Company's ASX announcements available to view on the Company's website. The Company is not aware of any new information or data that materially affects the information included in this Presentation and confirms that the material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed.

Past performance and previously reported information

Past performance metrics and figures (including past share price performance of ASM), as well as pro forma financial information reflecting the impact of the proposed acquisition, included in this Presentation are given for illustrative purposes only and should not be relied upon as (and are not) an indication of ASM's or any other party's views on ASM's future financial performance or condition or prospects (including on a consolidated basis). Investors should note that past performance of ASM, including (as applicable) in relation to the historical trading price of shares, production, ore reserves and mineral resources, costs and other historical financial information cannot be relied upon as an indicator of (and provide no guidance, assurance or guarantee as to) future performance, including the future trading price of shares. The pro forma financial information included in this Presentation does not purport to be in compliance with Article 11 of Regulation S-X of the rules and regulations of the U.S. Securities and Exchange Commission or Article 3-05 of Regulation S-X.

Market and Industry Data

Certain market and industry data used in connection with or referenced in this Presentation, including in relation to other companies in the peer group of ASM may have been obtained from public filings, research, surveys or studies conducted by third parties, including as published in industry-specific or general publications. None of ASM, its advisers nor its representatives have independently verified any market or industry data provided by third parties or industry or general publications.

Limitation on information in relation to Energy Fuels

All information in this Presentation in relation to Energy Fuels has been sourced from Energy Fuels. ASM has not independently verified such information and to the maximum extent permitted by law, makes no representation, warranty, express or implied, as to the fairness, accuracy, correctness, completeness or adequacy of any information relating to Energy Fuels or its projects.

Effect of rounding

A number of figures, amounts, percentages, estimates, calculations of value and fractions in this Presentation are subject to the effect of rounding. Accordingly, the actual calculation of these figures may differ from the figures set out in this Presentation.

Currency

All references to AUD or A\$ are to the currency of Australia. All references to USD or US\$ are to the currency of the United States of America.

JORC Code

It is a requirement of the ASX Listing Rules that the reporting of ore reserves and mineral resources in Australia comply with the Joint Ore Reserves Committee's Australasian Code for Reporting of Mineral Resources and Ore Reserves (JORC Code). Investors outside Australia should note that while the estimates in this document comply with the JORC Code, they may not comply with the relevant guidelines in other countries and in particular, do not comply with Item 1300 of Regulation S-K, which governs disclosures of mineral reserves in registration statements filed with the SEC. Information contained in this Presentation describing mineral deposits may not be comparable to similar information made public by companies subject to the reporting and disclosure requirements of U.S. securities laws.

Source: Company announcements and website

1. Energy Fuels currently has an offtake agreement with The Chemours Company for third party monazite purchases to be used at the White Mesa Mill in Utah. 2. American Metals Plant (AMP) is currently a proposed metals plant. 3. Mines are in various stages of exploration, permitting and development. 4. Energy Fuels has the right to earn up to a 49% interest in a joint venture that owns the Donald Project with Astron Corporation Limited (ASX: ATR). 5. Previously called Toliara

2. Direct access to Energy Fuels' proven operating track record with strategy aligned to government interests

Energy Fuels is uniquely positioned to unlock the inherent value of ASM's assets with its unmatched capability in solvent extraction, world class REE portfolio assets and access to global markets and governments.

Exposure to Unique World Class Assets

- ✓ **The White Mesa Mill:** conventional uranium mill in the U.S., which has been operating for ~45 years and the only facility in the U.S. able to produce REE oxides from monazite
- ✓ **REE & Heavy Mineral Sands Assets:** Developing Multiple tier 1 high grade mineral sands and REE assets such as Donald, Vara Mada ¹ and Bahia
- ✓ **Significant Australian Presence:** Earn-in for 49% interest in the Donald Mineral Sands and REE Project in Victoria and a Heavy Mineral Sands corporate office in Perth, WA (acquired as part of the Base Resources acquisition in 2024)

Western Focused Strategy

- ✓ **Fully Integrated:** Development of a secure and traceable REE supply chain capable of producing several "in demand" critical materials including uranium, vanadium, REE oxides, titanium and zircon
- ✓ **Western Focus:** Denver-based company with a portfolio of Ex-China assets and processing capabilities crucial to western critical mineral supply chains
- ✓ **Access to Government Funding:** Being US-based, Energy Fuels is well positioned to capitalize on numerous U.S. government funding & incentive options, and strongly aligns with the objectives of the U.S.-Australian Critical Minerals Framework

Leading REE Producer

- ✓ **Scale:** Transaction lays groundwork to create one of the largest fully integrated REE metal and alloy producers outside of China
- ✓ **Unlock Inherent Value:** No other facility in the U.S. can process monazite into advanced REE materials like the White Mesa Mill
- ✓ **Top Tier REE Supplier:** Well positioned to supply REE materials to commercial and government customers
- ✓ **Proven Capability:** Sold 9,000 kg of high-purity, partially separated mixed REE carbonate and 37,000 kg of separated NdPr as of 30 September 2025

3. Ownership in a larger group with significant funding capacity

The Pro-Forma group's strong balance sheet, including significant cash position and superior access to capital markets, provides the ideal platform to accelerate and deliver on ASM's development pipeline.
