- **Trade Match Type** is set to **FIFO** in line with the PWS product rules.

- **Family grouped for billing.** Fee treatment must be identical across every account in the group; grouping is approved by **Dean Surkitt (cc Nick Hamilton)** and the approval is attached.
- Cash account: **Macquarie Cash Management Account.** Confirmed linked on FUSION and not shared with another FUSION account — Praemium requires one dedicated bank account per client.

TRAINER NOTES — COST BASE FOR THIS SAMPLE

- For this superannuation fund account, the highlighted rows apply. Gather these **before** initiating any in-specie transfer — the ASM recreates FY26 portfolio history from them.
- Cost base must be the **original acquisition date and price** for each parcel. An average or total cost is insufficient. Where cost history cannot be supplied, an acquisition date of "unknown" and zero cost apply, and no CGT calculation is provided for that parcel.
